

# World Mysteries Conference

10-10-10

## 2012 Mayan Prophecies

You alone control your destiny.  
Where will your footsteps take you?

The Crystal Skulls world mysteries event is a metaphysical gathering of all races, religions and tribes for the unity and a celebration of life. We promote and coordinate special events related to world mysteries and their impact in social, cultural, economic, and environmental dimensions.

To this goal we have set about the 09-09-09 event, from this will bring the 10-10-10 event the 11-11-11 event and finally the 12-12-12 event in time for the big event of Dec 21 2012.

We are in the change foretold by the Mayan Prophecies. They are happening now. There is nothing to fear. It is not an end, but a fresh beginning.

The goal of the World Mysteries event's is to show this information to the world. To bring in some of the most knowledgeable speakers to help lead the way to our future.

From this we hope to create change by being the ripple of change.
