

LIA SCALLON ~ SOS ~ SOUNDS OF SOURCE

4 UNIQUE MELBOURNE EVENTS

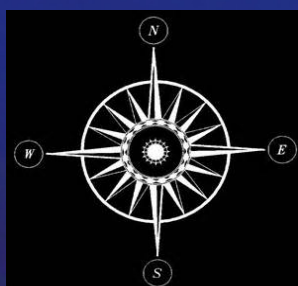

Lia Scallon and the Sounds of Sirius

For over a decade, award winning composer, singer and sound healer Lia Scallon's angelic songs and accompanying Language of Light have been transforming lives throughout the world. Described as being imbued with the frequency of pure Love, many people claim that the *Sounds of Sirius* reach deep into their soul, giving them a sense of 'coming home'. *"Lia's voice is spectacular...it reaches right into the soul"* ReviewsNewAge.com

An Evolutionary Leap

Spirit has asked Lia to make herself available to transmit Transformative Sound frequencies from Source, to help humanity utilise the intense solar radiation energy currently flooding our planet. Some visionary scientists believe these Solar waves will trigger an evolutionary Leap for mankind, enabling us to access the enormous unused potential of our brains.

The Four Cardinal Directions

Lia has been instructed to do four separate events in each city or region, to encompass the Four Cardinal Directions. The circular spiral of energy generated within these four points, will create a vortex and direct Gateway to Source that will act as a dynamic catalyst for transformation.

Spirit's message to Lia

"Those with eyes to see and ears to hear will call"

The people of Melbourne have called!
