

LIA SCALLON ~ SOS ~ SOUNDS OF SIRIUS

4 UNIQUE FAR NORTH QUEENSLAND EVENTS

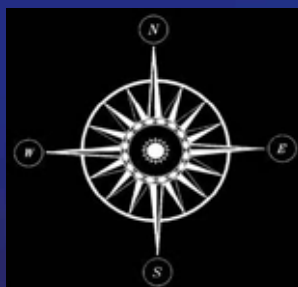

Lia Scallon and the Sounds of Sirius

For over a decade, award winning composer, singer and sound healer Lia Scallon's angelic songs and accompanying 'Language of Light' have been transforming lives throughout the world. Described as being imbued with the frequency of pure Love, many claim that the Sounds of Sirius reach deep into their soul, giving them a sense of 'coming home'. "Lia's voice is spectacular.... it reaches right into the soul" – ReviewsNewAge.com

An Evolutionary Leap

Some visionary scientists believe the current increase in solar radiation may trigger an evolutionary Leap for mankind, by unleashing the unused potential of our brains. Spirit has asked Lia to become the Transmitter of Transformative Sound frequencies from Source, to help humanity harness and utilise the energy of these intense solar rays.

The Four Cardinal Directions

Lia has been instructed to do four separate events in each city or region, to encompass the Four Cardinal Directions. The circular spiral of energy generated within these four points, will create a vortex and direct Gateway to Source that will act as a dynamic catalyst for transformation.

The Master Skull Solar

For the FNQ events only: The incredibly powerful, 36-kilo Master Crystal Skull Solar will be present in person.

To book for the event of your choice, please contact the relevant SOS Host direct.
