

CRYSTAL SKULL WORLD DAY 2014

Saturday, November 22nd (for some locations Nov. 23rd)

*WHAT IF every crystal skull guardian in the world focused on sending a healing energy to Mother Earth and all life for five minutes on **one special day**? Would you join in? And if so, what do you think might happen to our world?*

We, the **Crystal Skull Hearts Council (CSHC)**, are a group of crystal skull guardians who have come together in joy and love in response to the above questions. Formed via the Facebook group, **Crystal Skull World Family**, we have created a unique event - **CRYSTAL SKULL WORLD DAY** – to unite the world in peace and harmony. The Council is comprised of eight

members, each of whom has volunteered their time to coordinate this special day. As the Family's governing body, we will always speak as one voice to reflect the unified consciousness of the Creator, which the crystal skulls embody and to which we each aspire.

OUR INVITATION

We joyfully invite all crystal skull guardians and crystal keepers across the globe to link up in a five minute ceremony on **Saturday, 22 November, 2014** at designated times (see *below*). Each participant will join in the ceremony while holding one of their crystal skulls or crystals to send out a loving, healing energy to the planet. This could be done alone, or in a group, perhaps at a sacred site or in nature. If you don't have access to a crystal skull, you can hold a special piece of crystal instead while focusing on an image of a crystal skull. This event will celebrate the healing and peaceful energies contained within all the crystal skulls that exist in the world, whether newly carved, old or ancient; in public view or hidden.

OUR INTENTION

We believe with all of our heart and soul that, through uniting in peace and harmony, **CRYSTAL SKULL WORLD DAY** will greatly benefit all of humanity. The geometric power of so many guardians, further amplified by their personal skull, will produce strong spiritual and

healing energies, uplifting our world into a higher vibrational state and assisting the ascension of our world into the prophesised time of total peace. While this may sound implausible to some, we truly believe that there is inherent within every person an inner divine energy which could achieve such a goal. To be part of a five minute ceremony - *what do we have to lose?*

WHO IS THE CRYSTAL SKULL HEARTS COUNCIL?

We, the members of the **Crystal Skull Hearts Council** are a group of eight crystal skull guardians who have come together to create a special event in November this year called **CRYSTAL SKULL WORLD DAY 2014** for the sole purpose of connecting crystal skull guardians all over the world. This is a non-profit initiative for which we are all volunteering our time. In addition to the work of the Council, we are being assisted by an advisor who has many years experience working with crystal skulls, as well as a graphic designer who has kindly donated one of his exclusive designs to the project.

The principles which govern our group and have led us to come together to foster the emergence of this special event are as follows:

- 1) That the original purpose for the crystal skulls being gifted to humanity many eons ago (even before the time of the existence of the lost continent known as Lemuria or Mu) was to provide for humanity a tool for spiritual enhancement that would not only be a storehouse of universal knowledge and wisdom, but would assist humanity in their spiritual evolution and the realisation that every person on this world is a child of Creator, and thus, part of the family of humanity, with each person being unique and special in their own right, and with each person equal to the other;
- 2) That no one crystal skull (defined as any gemstone found on Earth which has been fashioned by some means, known or unknown presently, into the shape of a human bone skull or approximation, an animal shape, or even the shape of a being who may not be known to be a resident of Earth) is greater or lesser than another; and that no one crystal skull is more important than another, each crystal skull having a unique energy and service which it offers to his/her guardian and to this world no matter when the crystal skull was created or manufactured, whether it be recently or hundreds of thousands or millions of years ago, since in the true reality there is no time, past, present or future. This also applies to those crystal skulls that have been gifted to humanity as an apported object, their having come from another dimension or having been created via the mind of a sentient being or entity who exists in another dimension (that is, beyond the third dimension of Earth), and has seemingly arrived from nowhere and made manifest in this Earthly reality;
- 3) That no one crystal skull guardian is more important or less important than any other. Just as within the consciousness of the crystal skull family where each skull honours and respects and loves its brother and sister crystal skull equally, our Crystal Skull World Family group also

treasures and honours every single human crystal skull guardian on this planet equally, as indeed, each and every human, whatever their role in this time of great transformation.

Further, we believe that Crystal Skull World Day 2014, set to be held on 22 November, 2014 (or on 23 November in certain parts of the world), will be of tremendous benefit to all of humanity as we share a loving and healing energy amplified by the crystal skulls with which each participant will work on this day. Furthermore, we expect that, from a spiritual and energetic perspective, a great good will result from our coming together on this day that will uplift our world and assist humanity in making a transition into the prophesised time of total peace, moving our world into a higher vibrational state.

We, the members of the Crystal Skull Hearts Council, are functioning as a team and have agreed to be identified by the name of this council and not as the individuals who comprise the council. Therefore, in order that others see that our actions and motivation are coming from a neutral space, we will speak in one voice when dealing with the public and the individuals who join us. In this unity, we stand as a reflection of the unified consciousness of the Creator, of which the crystal skulls themselves are an exquisite manifestation. Our hope is that this event will foster further fellowship within the global family of crystal skull guardians, making it a true co-creation, and bringing unity, harmony and peace to all participants around the world; our collective light shining brighter as a result. Whereupon Crystal Skull World Day is a success this year, we intend to continue to work for another such day of celebrating with the crystal skulls in 2015.

If you would like to know more about Crystal Skull World Day 2014, or about the Council, or you have some questions for us or even suggestions how to expand the activities of this day (which are always welcome), please feel free to contact us at the addresses listed below.

Thank you for your interest and support
