Messengers

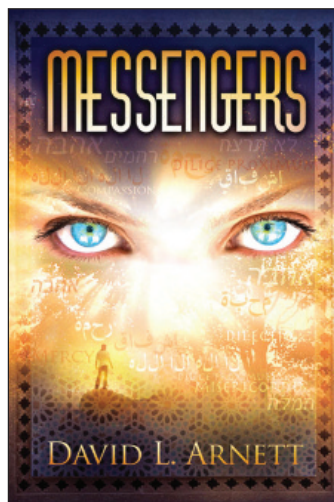

By David L. Arnett

What if you received a second chance at life after a near-fatal accident? What if the reason for your survival was facilitated by a guardian angel whose very presence set you on an unknown and life-altering journey?

By all accounts, Jake Daniels should have died when his SUV collided head-on with a moving truck. As he's drawn into a series of earth-shattering angel and demon experiences, Jake discovers he's being prepared to step into world affairs to prevent the clash of civilizations and reverse the violence and hatred of the post-9/11 world.

As his search for answers leads him around the world and across faith traditions, Jake questions: Why him? Why now? And is it too late?

A riveting novel about the urgent spiritual and political questions we face in the 21st century, **Messengers** will leave you reconsidering your outlook on life and death - and why we are here.
