Steven Halpern and Georgia Kelly channel ANCIENT ECHOES

Imagine being part of a full moon ceremony beneath the Great Pyramid 5000 years ago. This might have been the soundtrack.

Steven and Georgia helped define New Age music with this classic album when it was released, and you can experience the magic for yourself with their magnificently remastered collector's edition. The harp and electric piano duets are graceful and melodic; the vibe evokes the mystery and magic of ancient Egypt and Greece.

After recording for hours under the full moon in June, 1978, Steven was saying goodnight when something unexpected and wonderful happened: a sacred chant began to channel through him. Tape decks were turned back on, and the Invocation came through. According to psychics, this dates back to the time of the pharaohs and the Temple of Luxor.

The album includes several bonus tracks, including one recorded inside the Great Pyramid.

Do Greater Things:

Walking in Jesus' Footsteps

By Felicia Blanco Searcy

In John 14:12, Jesus makes it very clear that we are fully capable of repeating and surpassing everything he did. He says, "Very truly, I tell you, the one who believes in me will also do the works that I do, and in fact, will do greater works than these..."

Do Greater Things closely examines who Jesus was and what he taught, debunking the old "Salvation Myths" that prevent us from identifying with Jesus and understanding his essential message. When we shed the image of ourselves as worthless sinners who need a Messiah to rescue us, our minds and spirit open to emulating, and even exceeding, the example Jesus set as our spiritual teacher.

The author explains what it means to follow Jesus' example. She offers nine key spiritual practices taught by Jesus to help awaken our own divine qualities and learn what it means to live in Christ Consciousness every day.
