Sounds of Sirius

Lia Scallon

A former actress, Lia Scallon today produces unique, channelled healing CDs. Her work takes the form of melodies, tones and spoken word in the sacred language of Sirius.

"The energy I channel is the Goddess energy," says Lia. "Nurturing, compassionate and healing, it is the pure energy of unconditional love - the Divine Mother speaking directly to the soul".

According to Lia, "The star system Sirius was at the core of sacred knowledge of the ancient, advanced civilisations of Lemuria, Atlantis and Sumeria," explains Lia. "In Egypt, specific pyramids were temples to the Goddess Isis and to Sirius - her gateway and portal. The Great Pyramid of Cheops was aligned to the rise of Sirius - chambers within it are strategically positioned in reference and deference to Sirius."

The ancients believed that Sirius was the source of all life, of all energy. According to Lazaris "It is through the gateway represented by the brilliant blue-white star Sirius - that all energy enters your universe - the energy that is your very Soul and Spirit, the energy of your Higher Self."

The music sounds and language expressed on the CD, have been composed in order to reawaken the soul to its true purpose - to stir it into remembrance of its divinity. Lia says, "This unknown language is the root from which all language sprang. Different nationalities recognise words from their mother tongue - Arabic, Hebrew, Italian and Greek..." It is beautifully created and will no doubt touch you in deep places within your soul.
